

Fire & Explosion Accident Lawyer in California

 californiainjuryaccidentlawyer.com/fire-explosion-accident-lawyer-california/

Those who are hurt by a fire or explosion don't often receive a warning and can suffer from serious burns and emotional scars that last a lifetime. In 2014, there were [close to 16,000](#) injuries in the US from fires. Nothing is more important than ensuring **burn victims in California** get the treatment they need after they've been hurt. From basic skin grafts to complex reconstruction surgery, the expenses for medical bills can quickly mount.

Johnson Attorneys Group can help you during the difficult and confusing time that follows a fire or explosion. **If you believe your injury was the result of someone's carelessness, you may be entitled to compensation for your injuries.** [Contact us](#) today to give us more details about what occurred and how you believe it happened. Speaking to us is completely free when you call 1-800-208-3538. We'll take the time to evaluate your case and give you our honest opinion. If we take the case, you pay no fees until your case has been settled.

California Fire and Explosion Accident Laws

If your accident was caused due to the negligence or incompetence of an organization or individual, then you owe it to yourself to have the scene investigated to get the bottom of the incident. If you recently had a stove installed, the fire could have been caused by a negligent handyman who failed to connect the gas line properly. Accidents may also be caused due to poor product design, which is generally classified as [product liability](#). Our attorneys work to ensure we know the full story, so you can get the relief you need.

The proof for fires and accidents in the state of California can be difficult to find. Tracing the source of the problem is not as straight-forward as it may seem. **To prove negligence or breach of duty, we work with a dedicated team of experts who can reconstruct the fire scene to provide more details of when and how the accident took place.** We collect the information we need to show where and how the mistake occurred. By gathering physical evidence, witness testimonies, and expert opinions, we can narrow down the problem. Whether it's the landlord, business owner, or manufacturer at fault, we can help.
